working today?

Team up for 7 to 12 hours.

So you just got out of a relationship. Can I ask how that ended? Mutual? Badly? And can I ask what you are looking for in a relationship or someone you are dating? Your profile says casual so what does that mean for you?

The ex had 4 kids and she
had 2. So she had 6 kids.

The ex had 4 kids and she was heavily applying the pressure to move in. Her 4 girls are a lot to handle, their dad is not in their life, it was hard for me to enjoy time with my kids, I felt like she was very manipulative, she looked to me to be the father figure for her girls. It was overwhelming.

So the opening comment about me was that I was pressuring you and we are back to me being manipulative??? And hard for you to enjoy your kids? MAJOR slap in the face. I did everything to try and make christmas, birthdays and all their time with you great.

As far as what I'm looking for, I want to meet new people. I don't know many people up here. If I meet someone I like, then I think a relationship will naturally fall in place

Funny how nowhere you mention that the "pressure" was after two years and multiple times of being forgiven for having a wandering eye.....

Wow that sounds terrible. My ex bf was manipulative too. He spent a lot of time convincing me that he wanted a future and loved me but then when it came down to it he just wouldn't commit to anything. He

Wow that sounds terrible. My ex bf was manipulative too. He spent a lot of time convincing me that he wanted a future and loved me but then when it came down to it he just wouldn't commit to anything. He always had excuses from work to my kids to whatever. I thought he just needed time. After a year and a half I finally realized that he was never going to care about anyone more than himself and decided to leave

She was manipulative? Can I ask how so? My ex said that about me when we broke up and I have never understood his perspective because I always did whatever he wanted. So I'm just curious how that looks on the other side

She's very sweet but has a lot of baggage. 3 marriages, 4 kids with 3 men, and honestly, my biggest turn on with a woman is her ability to parent. She is not a good mom at all. I hurts me to say that but it's so true

Well you started out nice but then straight for the heart. Was this the part where I supposedly talked shit to make that ok?

He is the nicest guy and has done really well. His last girlfriend was a total gold digger. He really likes her but says she is kind of closed off

Wow. Not a good mom? How so?

Now I'm really worried because he is such a kind-hearted guy. I don't want to see him get taken advantage of again.

They misbehave, she does not hold them accountable, bad grades in school and she goes out all the time and makes her 15 year old babysit all the time.

And she owes me
\$10,000!!!

Still waiting for the part where I say something about you.....
no? not yet?
Doesnt seem to stop you from critisizing my parenting, accusing me of neglect and saying I owe you \$10k (which I dont) and making it sound like I don't even try to pay you back..... classy

Oh my gosh. She sounds awful. Maybe I should encourage him to do his research. He mentioned the previous marriages and kids but he made it sound like it was just some bad luck she ran in to. Sounds

She says it's my fault that her kids are hurting.

Do I though?

How did they meet?

Why? What did you do? I mean I'm sure you are nice to them. Do you talk to

If I showed you some of the recent communication with her then you would flip!

Thought we agree to not betray trust by shwoing private conversations....
huh, guess I misunderstood. Here I've been not showing people all your stuff our of respect

If There's anything that I am still bitter about it's the cowardly way he hurt the kids

Anyway back to your crazy

she is still communicating with you?

She had 2 very close girlfriends in valpo that have cut off all communication with her because of her manipulative ways, and that decision was made solely based on their communication with her. I had nothing to do with it. So now they are my friends and they keep trying to set me up with people.

So I guess you lied to me about not talking to Ashling too.

And broke your promise
to me to not engage
with Sarah further.

I'm glad you are so proud of landing yourself such great friends who will fix you up with all the women you listened to them talk shit about

pretty on point to me.

He asked her why she is so aloof and told her that he is really interested in dating her and apparently she told him that she is super heart broken and hurting and worries about hurting him because she is heartbroken and he ex (that's you lol) made her feel like she is unlovable.

She is clearly just trying to

He said she won't even commit to another date even though she told him that she "really does like him" 🙄

I hope she finds happiness. My fam did not like her which really complicated things

The plot thickens now with family drama. Nice to know the people I trusted are all two-faced according to you

He makes it sound like she does ok- good job, takes care of herself etc

It's really great that you can be the bigger person like that

She does well because I bailed her out

Come again, now? Do you do my job? You bailed me out? Here I thought you loved me and were just trying to help me

thanks for coming to my defense. Oh, wait.....

She really sounds like the worst person. I am so concerned for him now but of course, I can't tell him about this convo

Of course, at this point I had no idea this conversation was even happening. I was innocently headed to work with no clue that my entire day was about to be ruined....

I know him and when he wants something he will wait. He Thinks she is worth waiting for so he will keep pining away. He literally just said to me "she is just hurting now but I swear she is magic. I'm gonna wait it out. I have only seen her twice. Kissed her once and already I can't imagine her not being around."

He doesn't realize it's black magic 😂 he's done for

Oh damn. He needs to be very cautious. I really mean that

Yep really feeling like you wish me all the happiness now....

Any red flag I can casually point out? I don't want to alienate my friend either. We've been friends for ten years

Her ex friends that are now my friends are so fucking furious but I keep telling them not to contact her. They are sweet girls but they want to speak their mind as well.

still thinks you can be

10:30 AM

I wish her all the happiness in the world because she is very kind hearted. You asked me what red flags to look for and I told you. Again, I said I was not perfect either. Her being happy is what's important to me. You never asked me the good qualities about her which the list far outweighs the negative. You know nothing about me and I don't expect you to. I was trying to be up front and honest with you and you even asked that our conversation be private which clearly it wasn't. I'm sorry that you felt the need to go to her. I wish her and your friend the best of luck.

The one missing I accidentally deleted but I know that is the only one where she conveyed things I said after we talked. I'm sure you can go read them in your messages yourself. I read what she said I said and it was just the truth- you cheated, you didn't keep your promises to me about the kids and you only see your kids a couple times a month (which I think was my lame comeback for me being an awful mom) NOTICE I never said you were a terrible father, evil person or anything. I STILL haven't.

Yeah I can see this too little too late paragraph where you try to remove your foot from your mouth.

You even say "I was being honest with you" which indicates that you mean what you said about me.

>> Me being happy is important to you???

All evidence to the contrary.

Truth. I don't think I could breath for at least three minutes. Literally

Her being happy is what's important to you? Well maybe you should go back and read your own messages. Calling someone a bad mom and making her sound like a loser? Being friends with her ex friends and talking shit about her with them behind her back? She said you were together for over two years and you broke up with her five times, talked to other women, made promises you never kept. Even still she insists that you have a good soul. I mean I guess if that's honestly how you feel about her that's what it is. It certainly doesn't seem like you wish her well. Honestly, I feel sorry for her having to hear about it. Must be crushing to feel like someone you love thinks you're a piece of
